## Charity Learning Consortium

Collaboration works! Bringing charitable organisations together enables the Consortium to offer cost-effective, quality eLearning to more than a million people in the third sector across the UK.

More than that, our collaborative concept paves the way for eLearning success, with ongoing support, fantastic networking opportunities, relevant workshops and an inspirational Charity Learning Conference.

As a result, independent research reveals that our members save twice as much money on L&D compared to non-members in the sector, are twice as likely to report positive changes in staff behaviour and almost three times more likely to report that using learning technologies has improved their organisation's productivity. No wonder our members love us!

More than 150 charities, housing associations and not-for-profits already benefit from collaborating with our unique organisation – would you like to join us?
