## Skill Pill

Skill Pill is ideal for the modern learner who desires access to content at a moment of need – for example, prior to a difficult presentation or challenging meeting. Our dynamic micro-learning content will support your colleagues in what they need to know and when they need to know it. At Skill Pill, we also create bundles of learning for all levels in the organisation. Our leading edge learning is dedicated to helping each colleague be their ‘best self’.

Our content is derived from international business bestsellers, published by our content partners: Pearson, Kogan Page and FT Publishing.

At Skill Pill, we deliver high levels of learner engagement and content retention. We have over 1000 learning objects within our digital learning library, specialising in business performance support: leadership, management, personal effectiveness and Office/IT skills. We have deployed learning to over 125 countries in 20 different languages.
